DATA FEED DISTRIBUTION

We can push your truck inventory to multiple online listing sites. That is why more truck dealerships are switching to the **iTruckTrader.com**.

For every dealer who is using online marketing, we are ready to distribute eye-catching designs and attention-grabbing visual content.

Post daily or twice a month (up to you)

Display purchase price or a financed monthly payment

Customized images to add on vehicle photos (QR code, contact info, dealership's logo)

Multi-state and region capability

Analytics and reporting: see how many prospects come to your site from your posting

Achieve maximum exposure to your target audience by listing your inventory on multiple sites.

Showcase your truck inventory on popular platforms like **Classified Posting**, **eBay** and **OfferUp**. We can forward all the necessary information to list your inventory as well as the amount of clicks on each ad. Enjoy the ability to track how many prospects come to your site from the ad.

E-MAGAZINE

Our digital brochures are made with the highest image quality and professional design. They are virtual magazines that customers can download or subscribe to.

Pages can be zoomed in or out and flipped through thanks to realistic 3D page turning. These e-Magazines can really help you to market your inventory and services at reduced costs.

- Tremendous savings on print, distribution and postage costs
- Restore your print customers and increase your sales
- Realistic 3D page turning presents only your inventory and not that of your competitors
- Negotiate lower printing costs for your print publications
- The most eco-friendly way to communicate

ANALYTICS REPORTING

Powerful real-time analytics provides valuable insights as to how your customers found your site, which keywords they used, what time of the day do they like to shop, what pages were they viewing during their visit, which device they were using to view your site and much more.

Visitor Information:

Time of visit	Real-time visitor tracking
List of keywords	Unique visitors
Traffic Sources	Actions per visit
IP address	Bounce rate
Device used	Vehicle statistics
Referring site	Number of clicks

Facebook

Having a **Facebook** page means humanizing your location and your brand, becoming an active member of a community.

Youtube

YouTube promotes your business, it can be viewed on TVs, mobile phones, computers, laptops and tablets.

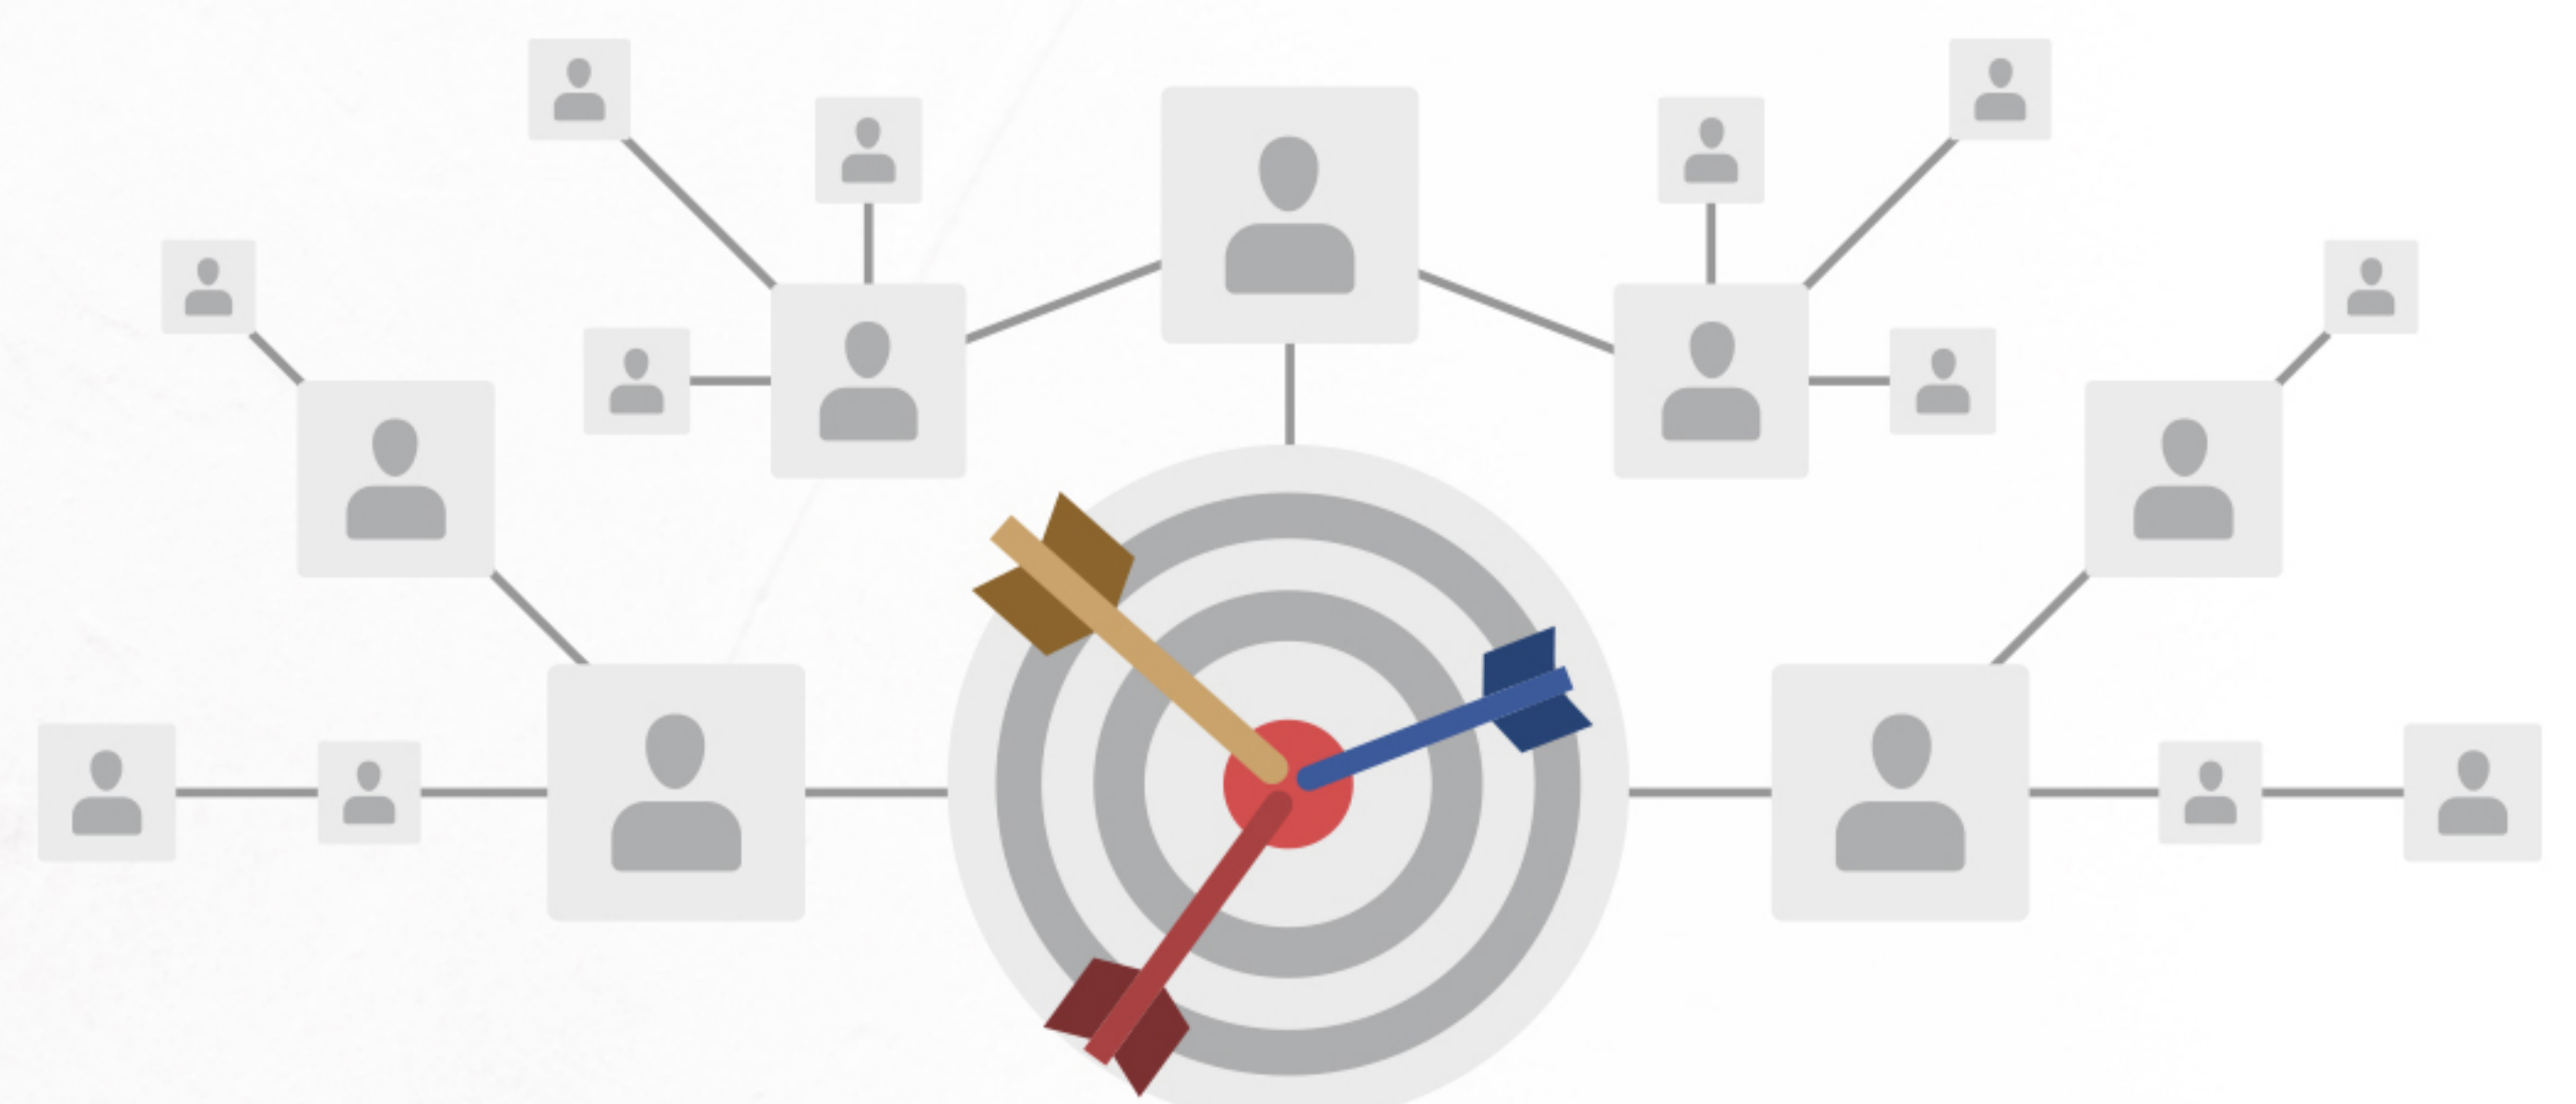

Twitter

Some claim **Twitter** is even more important for businesses because of its ability to handle rapid fire posting.

SOCIAL MEDIA MANAGEMENT

Communicating with customers properly is of utmost importance. And here is where **Facebook, Twitter, YouTube**, and other social networks and blogs are very helpful. Social media is a huge and captivating space now. Social media provides the ability to connect with customers individually, and in a highly targeted, customer specified way. It's important that you make people aware of your company and its line of business.

Social media is one of the most cost effective Internet marketing strategies. You do not need to invest money into it, just invest some dedicated time and resources. Increase your traffic in no time.

TRUCK DEALER SEO

GET THE COMPETITIVE EDGE

ON SITE OPTIMIZATION

On Site Optimization deals with everything on your website that you can change and modify. You need **ON SITE SEO** if you want to increase organic traffic, drive leads and improve your position in search engine results.

On Site Optimization is a process which has three ultimate goals:

- MAKING** your website more relevant to customers' queries
- SHOWING** search engines that your website contains the data that people are looking for
- HELPING** customers to better navigate the items of interest

Once your website is optimized, it will be ranked higher in search engine result pages, its visibility will be increased, and more customers will visit your website.

OFF SITE MANAGEMENT

Off site Search Engine Optimization is the process of promoting your website across the web. It is accomplished from sources other than your dealer website to increase search engine performance for target keywords that are related to your On Site content and the keywords that exist in Off Site direct links.

GET THE COMPETITIVE EDGE

GOOGLE MY BUSINESS POSTS

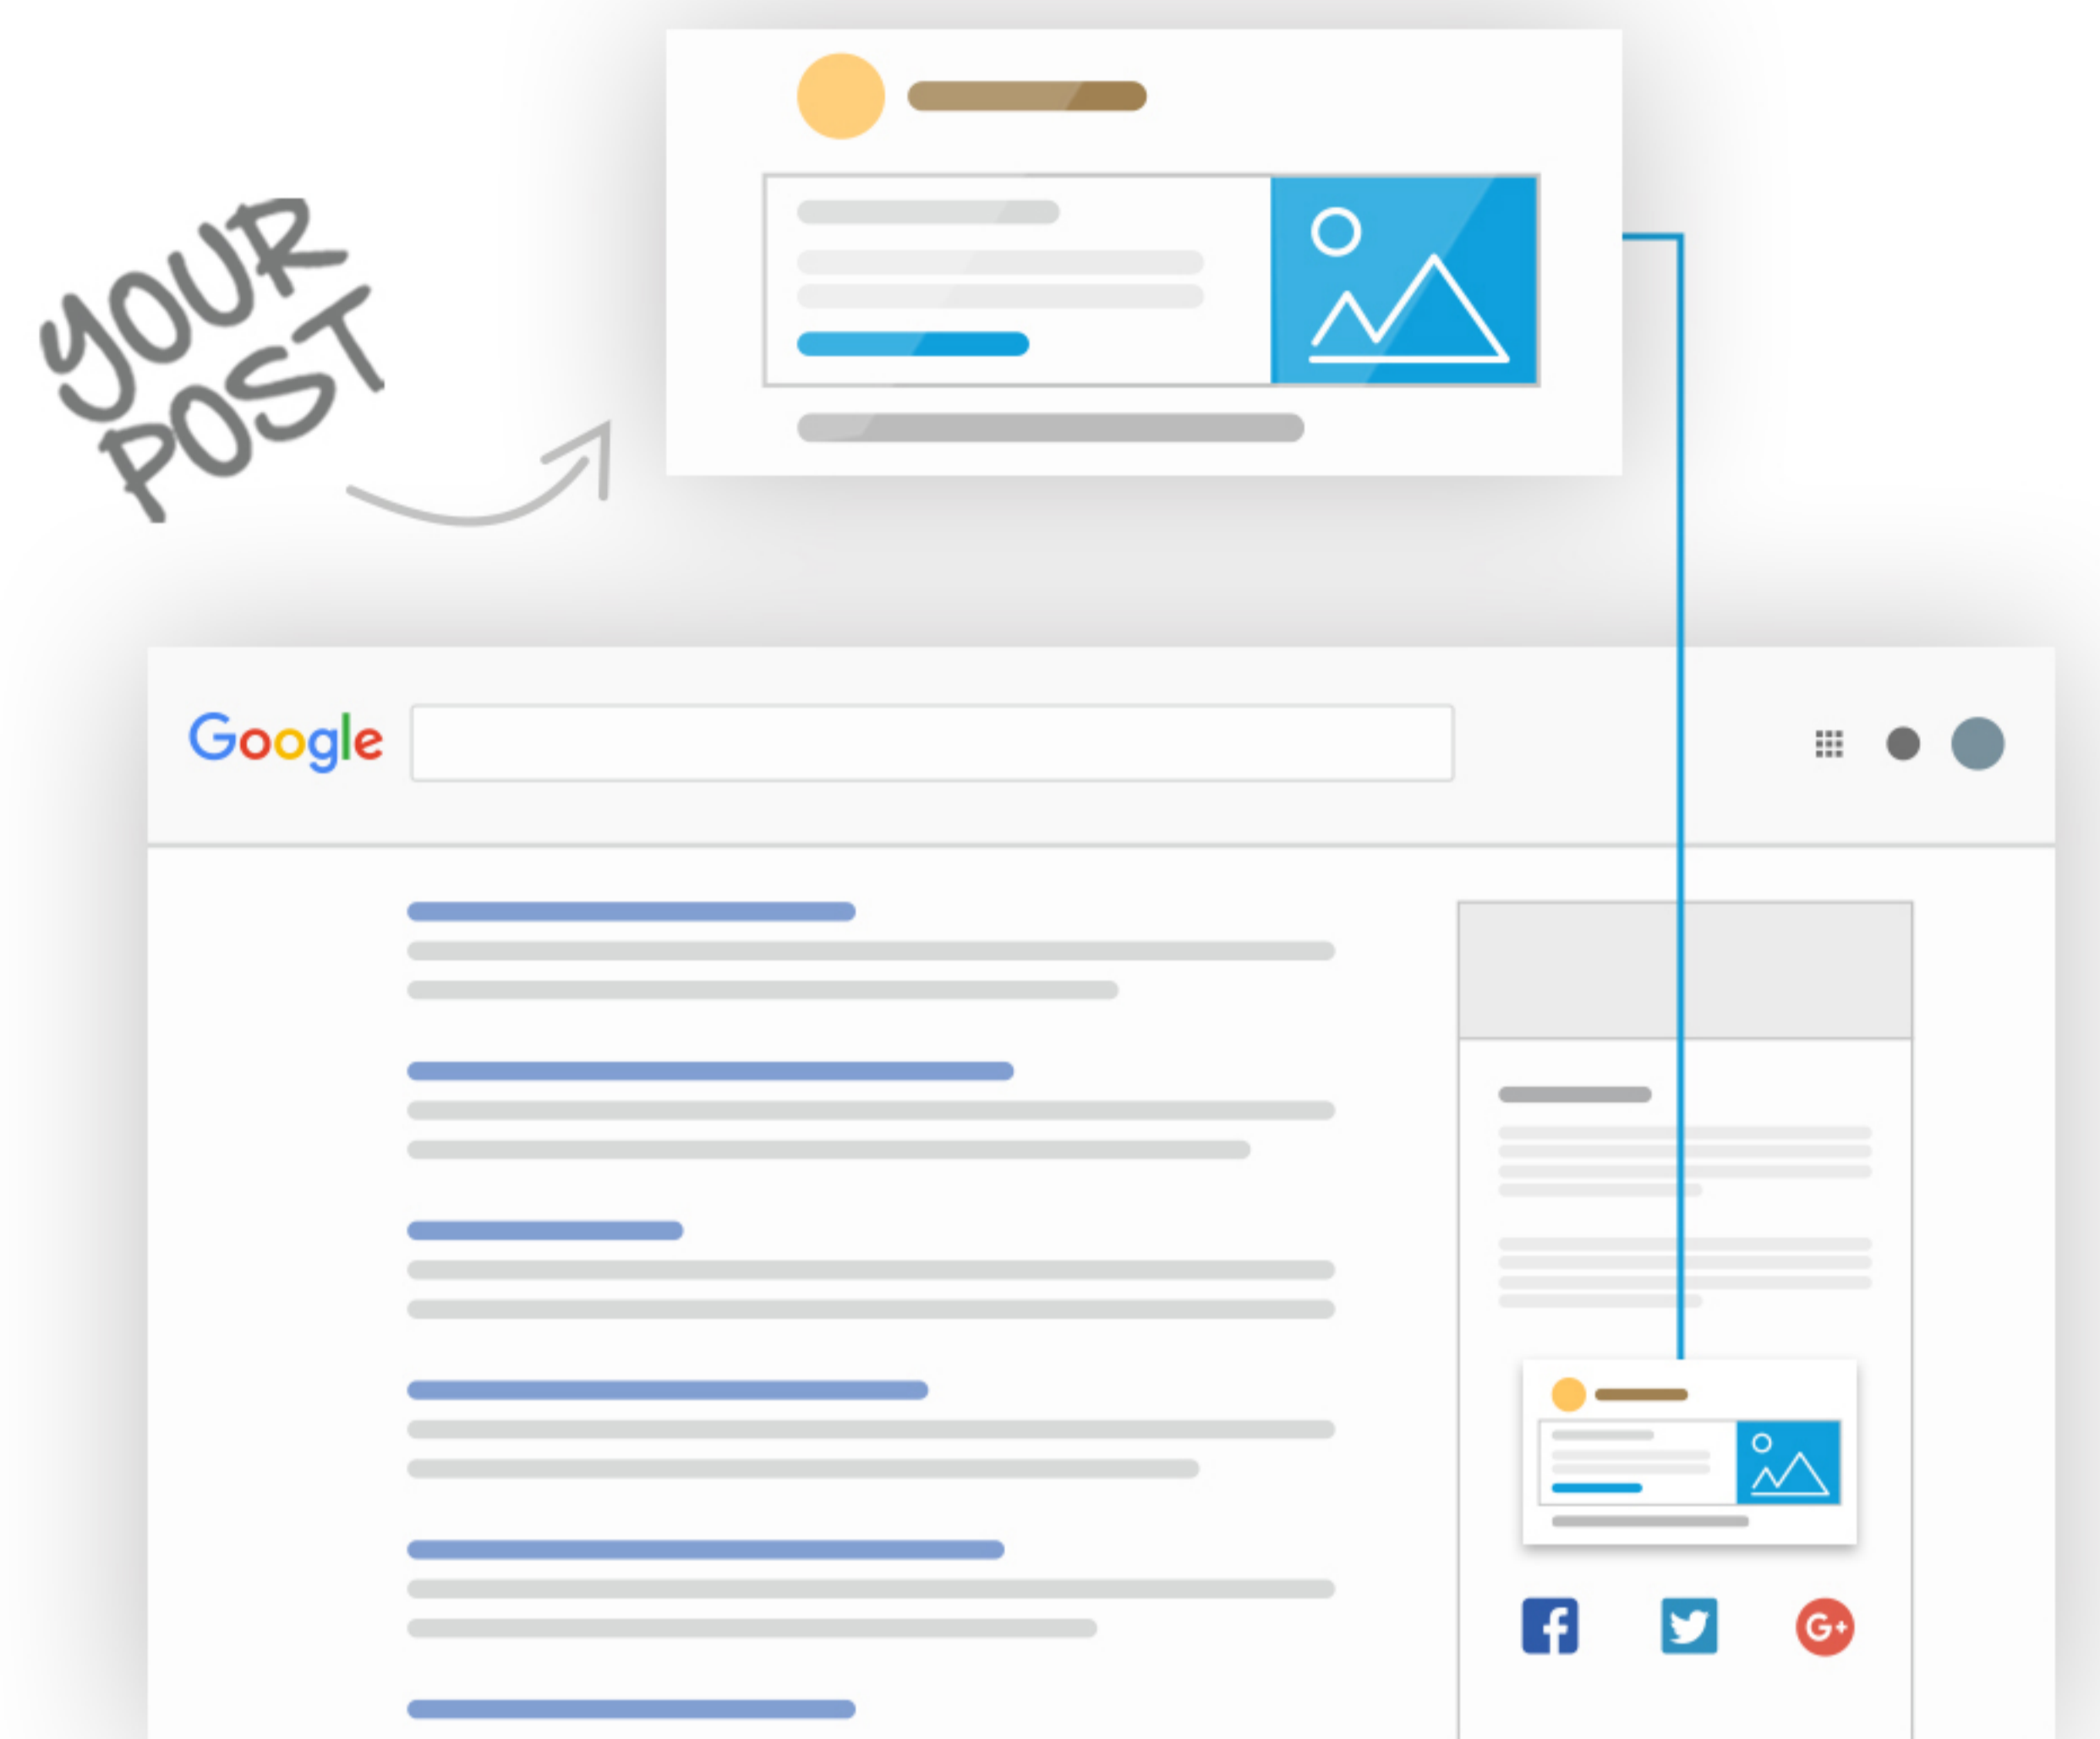

Did you know that **Google Posts** can increase your bookings and conversions?

Do you want to bring users from **Google directly** to your own website?

Are you utilizing **Google services** to the fullest?

You can make use of **Google Posts** to improve your local ranking and attract more customers.

Google Posts are the snippets of information about your business displayed on a local panel on Google search and on Google Maps.

If someone is searching for services similar to yours nearby, your Google Posts will be seen within Google's Local Finder. You can gain some insight into the number of views and the extent of participation inside your Google My Business dashboard. Each post has a share button which allows the posts to be republished on social media platforms like Twitter, Facebook and Instagram.

This Google feature will help you set your business apart from the competition.

WE ARE

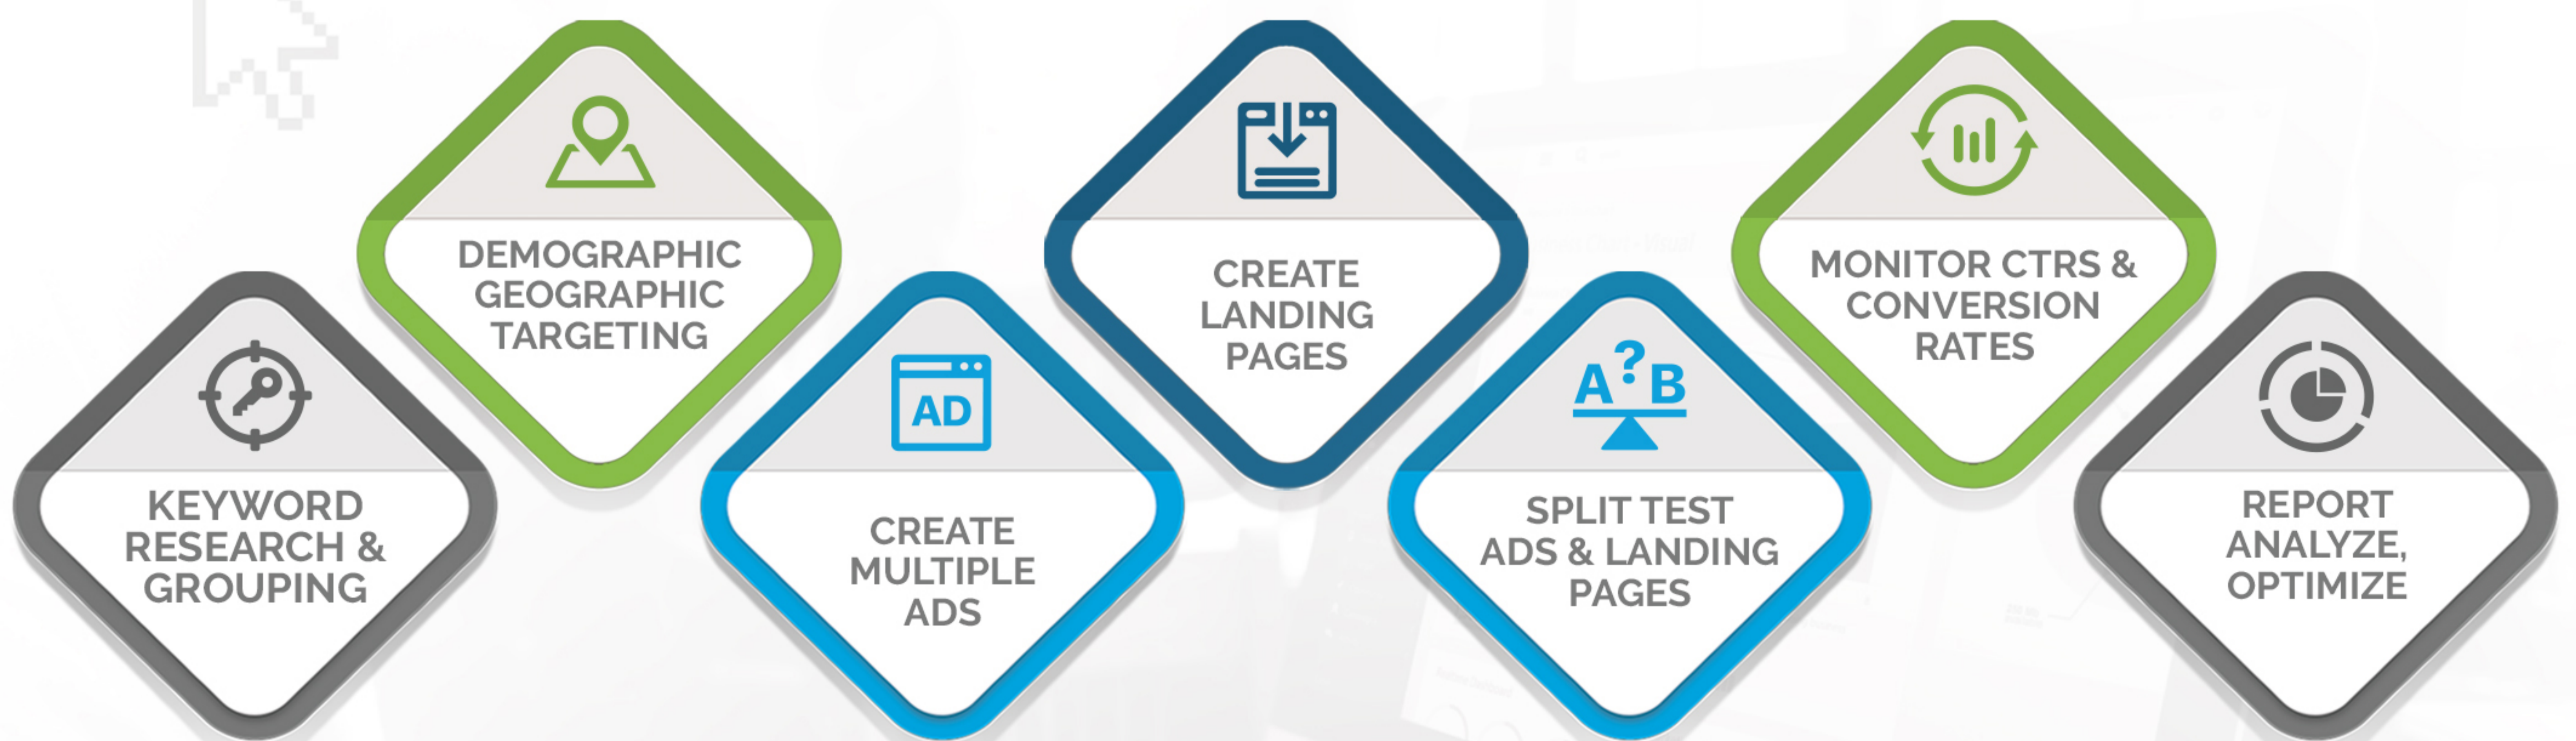

PPC CAMPAIGN MANAGEMENT

PPC stands for pay-per-click, a form of Internet marketing in which you pay a fee only when your ads are actually being clicked.

The users that click on your ads are very relevant, so your PPC campaign will attract people who are already in need of your products or services. The fees you will pay are negligible, because the visit of your potential customer is worth more than a small fee.

We will base your PPC campaign on an effective PPC keyword list by which people are looking for products or services you offer.

TRUCK DEALER WEBSITE

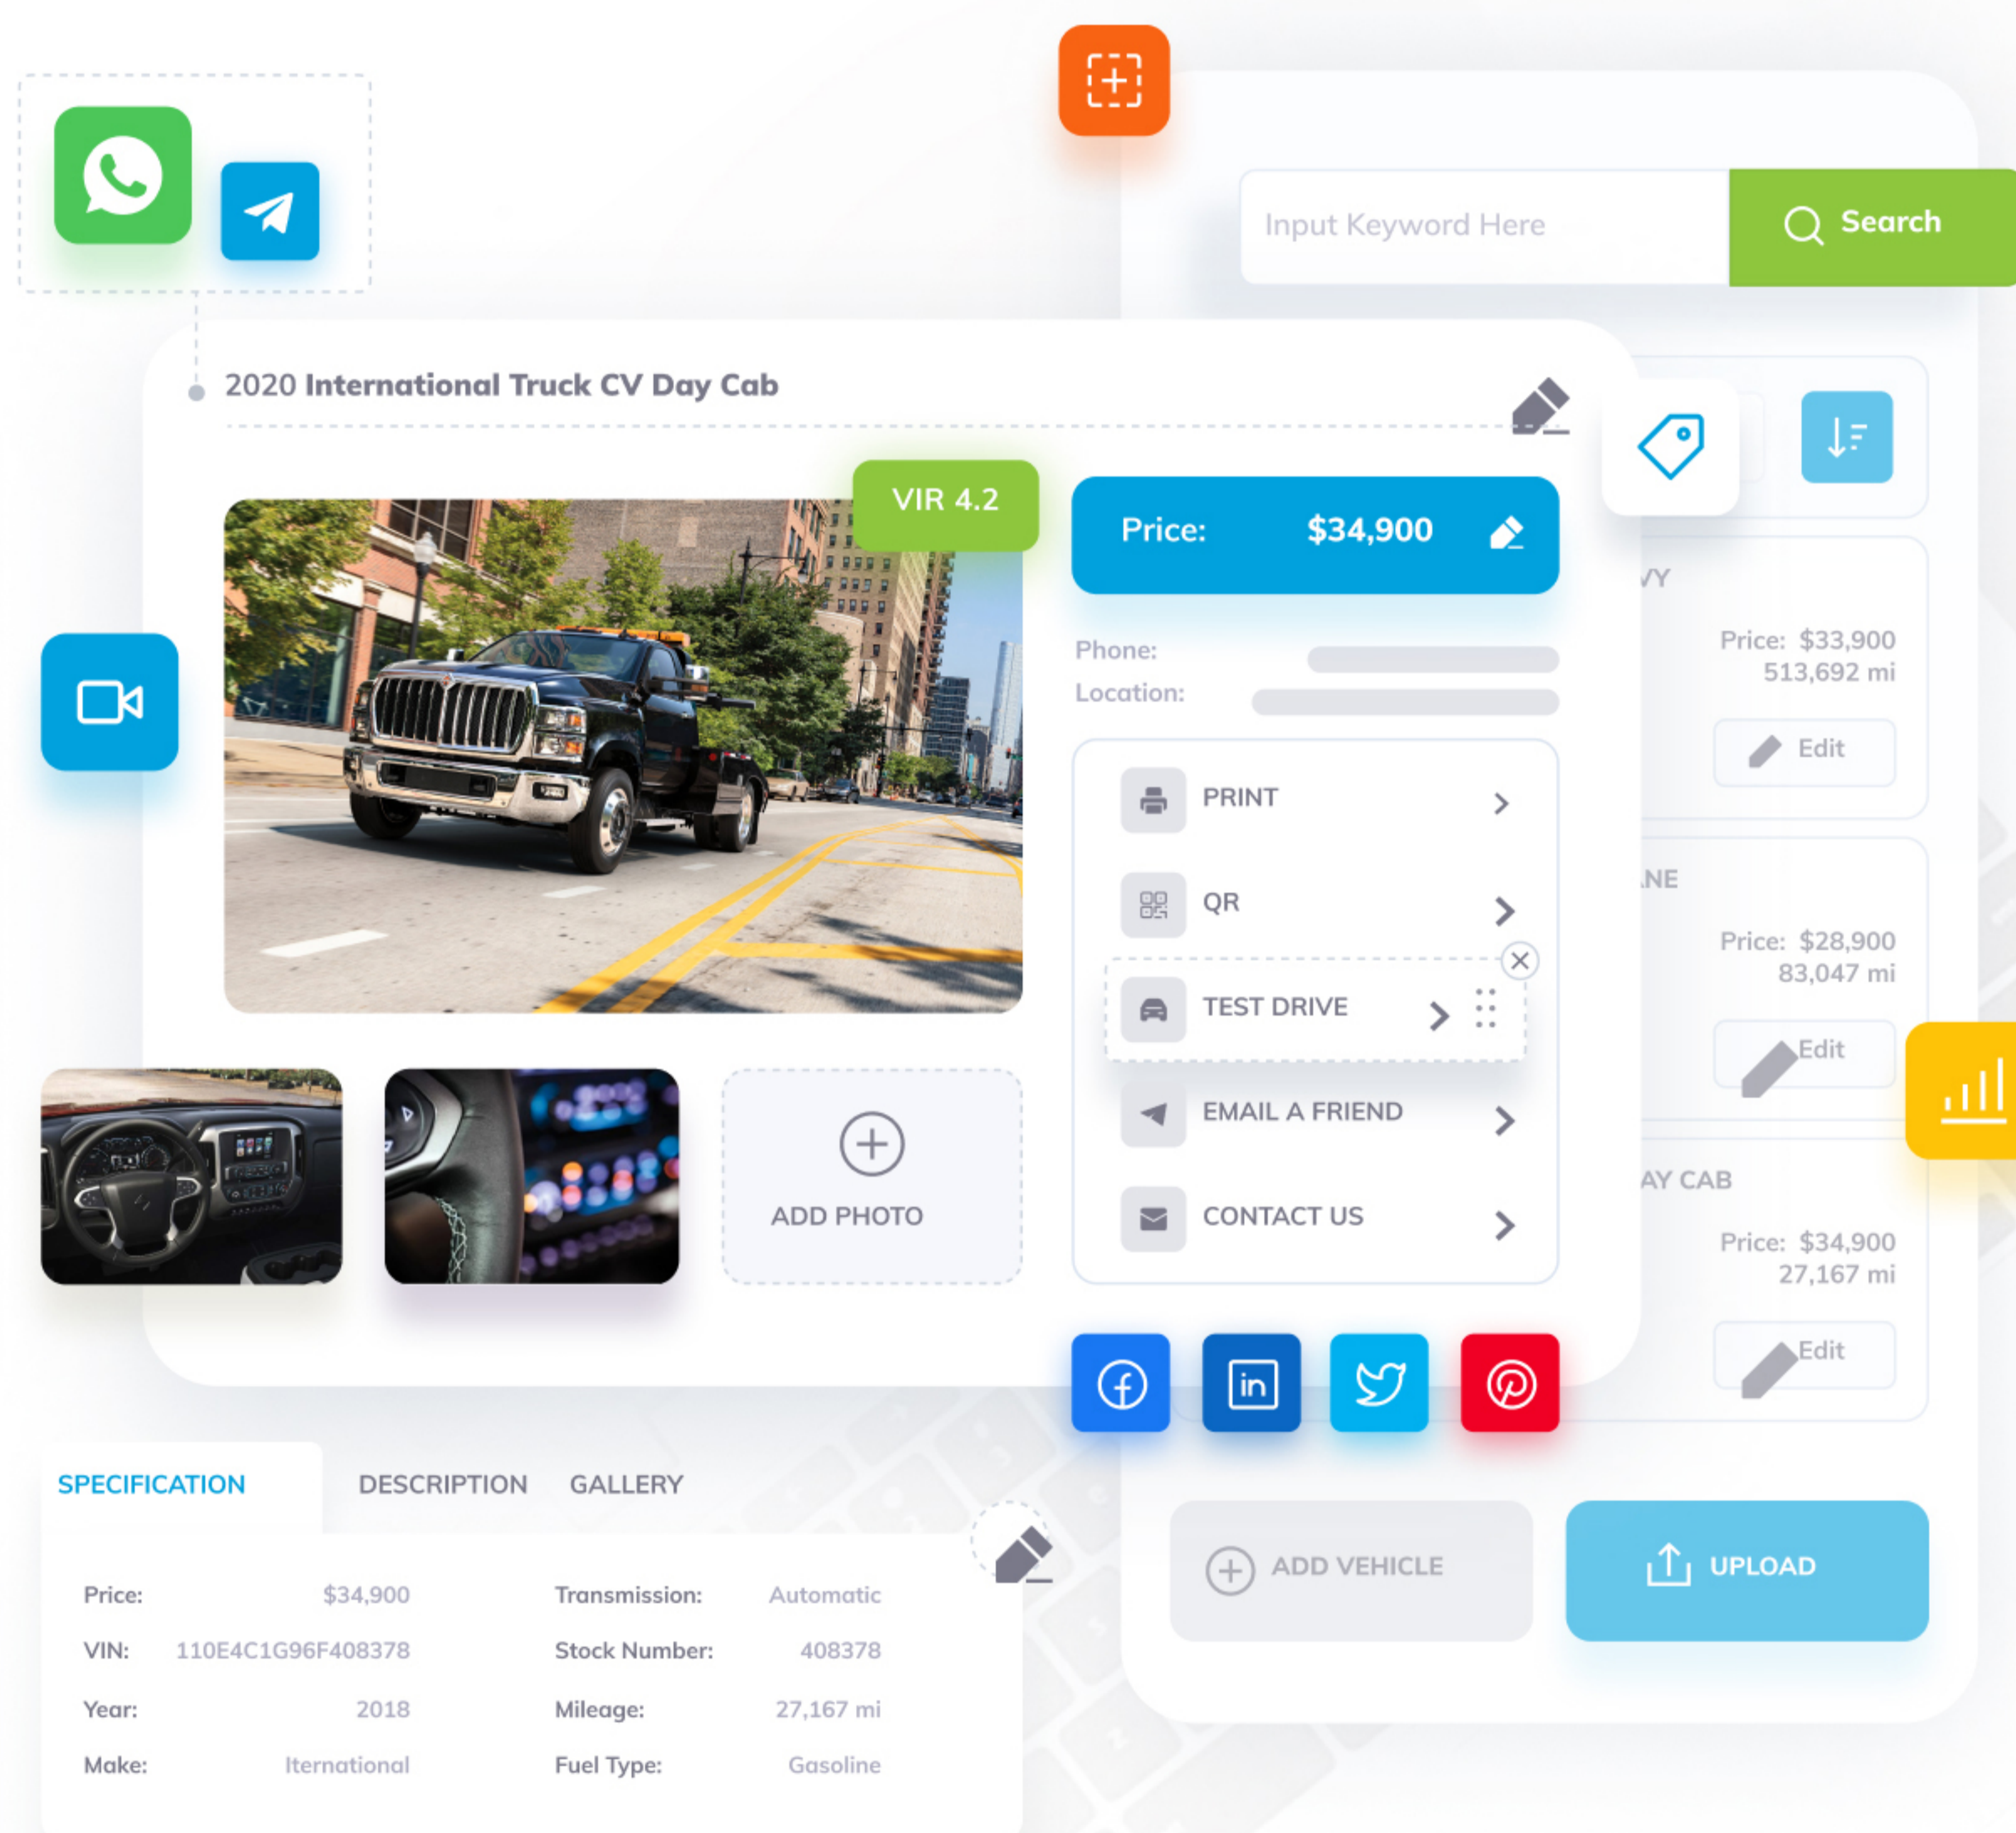

Website management is extremely simple and convenient. With intuitive navigation and drag-and-drop functionality, your website will be ready in no time. We offer you the ability to manage your inventory from the DMS for the proper presentation of vehicles. Finding all the answers on one page will save much of your time. With hundreds of design options to choose from, you can customize your dealer website to fit your style.

Find the best layout for your trucks, vans, trailers etc. Organize your trucks in types and categories: light, medium, heavy or severe service trucks. Specify truck details: sleeper type, engine, axles, wheel base, ratio, suspension and others.

With all of the forms and applications we offer, your truck website will provide consumers with the information that they are searching for.

Give your customers the opportunity to make the right choices with our variety of useful searches, which gives the most complete information on prospective vehicles. Browse by truck category, make, model, price etc.

The search widgets are designed specifically for trucks, vans and trailers and will complement everyone with a truck dealer website. Help your customers to find all your dump trucks, tank, low boy and horse trailers, tractors, excavators and even buses.
